

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

PHONOGRAPHIC AND PRONOUNCING

V O C A B U L A R Y

OF THE

ENGLISH LANGUAGE.

BY ISAAC PITMAN.

LONDON:

FRED PITMAN, PHONETIC DEPOT 20, PATERNOSTER ROW.

1850.

Printed by Isaac Pitman, Phonetic Institution, 5, Nelson Place Bath.

PREFACE.

To furnish a Steno-phonetic representation of the English language, which should combine, to the greatest possible extent, the elements of brevity and legibility, and to bring such a system of writing into general use, has been an object of pursuit with the author during the last thirteen years. The very extensive adoption of PHONOGRAPHY as a substitute for ordinary longhand writing, and the publication of the present work, which has long been urgently demanded, give him reason to hope that he has succeeded in his attempt; if not to the extent of his own desires, at least to the satisfaction of others.

In this VOCABULARY (which is written in accordance with the system of Phonetic Shorthand developed in the *Manual of Phonography*, 8th edition,) an attempt has been made to exhibit the best outline for every word. The varieties of consonantal form of which some words, when written in Phonography, are susceptible, result from the employment of duplicate forms for two of the most frequent letters, namely *s* and *r*; an upward and downward direction given to *f* (*sh*) and *l*; and the use of a series of systematically formed double and treble letters, the elements of which are sometimes expressed by their respective single phonographs, and at other times by a compound phonograph. The superficial observer regards this as a defect in the system, but the practitioner knows that it is one of its chief recommendations. It is at once a source of brevity and perspicuity. As far as possible, each word, when written in Shorthand, should have its own consonant outline, whereby, independently of vocalization, it might be distinguished at a glance from every other word. It is evident that this cannot be effected with respect to all words that contain the same consonants: the utmost that can be done in this case is, as far as the phonographic alphabet will admit of it, to mark, by varieties of outline, *classes* of words, according to differences in the situation of their vowels; thus distinguishing by different outlines *vale*, *veal*, &c., from *valley*, *value*, &c.; *packed* from *packet*, &c. The advantages of this arrangement are felt even more forcibly by the reporter than by the writer of the second style of Phonography. On this subject the reader is referred to the *Reporter's Companion*, par. 11, which gives the result of reporting practice. The phonographer will be assisted in his choice of forms, and saved the trouble of turning out numerous words in the VOCABULARY, by carefully reading the rules laid down in the *Reporter's Companion*, par. 40—52, which, being deduced from an extensive course of phonographic writing, determined the selection of the letters in particular classes of words. In the same work, par. 54, is given a List of about

VOCABULARY.

A CATALOGUE

OF

PITMAN'S PHONETIC PUBLICATIONS,

IN AID OF THE

Writing and Printing Reform.

London: FRED PITMAN, Phonetic Depôt, 20, Paternoster Row,
(Removed from 1, Queen's Head Passage).

Bath; ISAAC PITMAN, Phonetic Institution, 5, Nelson Place.

The Publications contained in this List may be obtained by order of any bookseller in the kingdom, by giving the title, together with the address of the London Phonetic Depôt—Pitman, 20, Paternoster Row.

All books published at 2s. and upwards, will be sent post free from either London or Bath. Remittances of 10s. or more, to be made by post office order. Smaller sums may be forwarded in postage stamps.

The publications marked () are sold at the London Phonetic Depôt, and at the Bath Phonetic Institution, at three-fourths of the published prices, when four or more copies are purchased at once. A liberal allowance is made to professional Phonetic lecturers and teachers.*

The books recommended to the student of Phonetic Shorthand are the Exercises and Copy Book.

PHONETIC SHORTHAND.

* EXERCISES in Phonography, or First Book of Instruction in Phonetic Shorthand, containing a series of progressive Lessons, to be read, and written out by the student into the Phonographic Copy Book. Price 6d., post paid, 10d.

* The Phonographic COPY BOOK, made of ruled paper, with the Phonographic Alphabet on the cover, price 3d.; post paid, 7d. With twice as much paper, price 6d.; post paid, 1s. The Exercises and 3d. Copy Book together, p.p. 1s.3d.

* A MANUAL of Phonography, containing a complete exposition of the System, with numerous shorthand examples interspersed with the text, and exercises in reading. 8th edition; price 1s. 6d.; post paid, 2s. Cloth, 2s. Roan, gilt 2s. 6d.

* EXERCISES and MANUAL in one volume, roan, gilt, 3s.

A Phonographic and Pronouncing VOCABULARY of the English Language. Foolscap 8vo; cloth, 6s.

* The REPORTER'S COMPANION: an Adaptation of Phonography to Verbatim Reporting. 3rd edition, price 2s. 6d.; cloth 3s.

LIST of the Phonetic Society for 1849, price 2d.; post paid, 6d.: for 1850, 1d.; post paid, 2d. Printed in the old spelling.

The members of this Society kindly offer to correct the lessons of phonographic students, through the post, gratuitously.

The Phonetic SHORTHAND ALPHABET; price, 6d. per 100; p.p. 1s. 4d.

LARGE CHART of the Phonetic Shorthand Alphabet, (4½ feet by 3,) 1s. printed in colours, 2s.; in colours and mounted, 5s.

PRINTED IN PHONETIC SHORTHAND.
